# Welcome to Turnbull kitchens and bathrooms

I hope this brochure will give you a glimpse of what we do and will help you find inspiration for your home, whether you're looking for a large family kitchen or a space-saving en suite bathroom.

We know that planning a new kitchen or bathroom is an exciting time and represents a significant investment - so we're here to help ensure you get the very best design for your space and budget.

As a family-run kitchen and bathroom retailer with over 40 years' experience, we've built a reputation on word-of-mouth recommendations and great customer feedback. We partner with brands we love and carefully select products that have the quality, look and functionality we expect in our own homes. Our expert team of in-house designers and product specialists are dedicated to bringing your ideas to life and would love to chat through your project with you.

Don't just take my word for it. Do visit one of our showrooms (details on p69) and see what we're talking about. We very much look forward to your visit.

Kind regards

Chris Hopkins  
Director

# Why use Turnbull?

## Over 40 years' experience

We're a family-run business, designing kitchens and bathrooms for customers for over 40 years. Our specialist knowledge of the latest innovative products, designs and trends allows us to create kitchen and bathroom layouts that work for you and your space.

## Friendly staff offering independent advice

Our designers don't work on commission which means that their focus is on finding the right product for you and your budget. They can advise at every step of the process; from planning to pricing and installation, we offer everything you need under one roof.

## Free design and planning service

Get expert advice and unleash your inner designer with our end-to-end design experience. Your personal design consultant will bring your vision to life using our specialist software, allowing you to understand how the design will look in reality.

## Partnered with Europe's leading suppliers

We showcase some of Europe's leading brands, carefully selected by us not only for their superb design but for functionality and quality. Discover top names like NEFF, Bosch, Quooker, Duravit, Pura, Lakes, Merlyn and many more. You'll find the latest models and designs with working displays across all our showrooms.

## Proven aftercare service

Expect exceptional customer service from enquiry through to the day you first use and enjoy your new kitchen or bathroom. We'll ensure you get the perfect finish for your space, right down to the last detail with our dedicated aftersales team.

We know we get it right when our customers tell us that their new installation has exceeded their expectations.

# 3D Design Software:

See your new space come to life using the latest technology

## Peace of mind

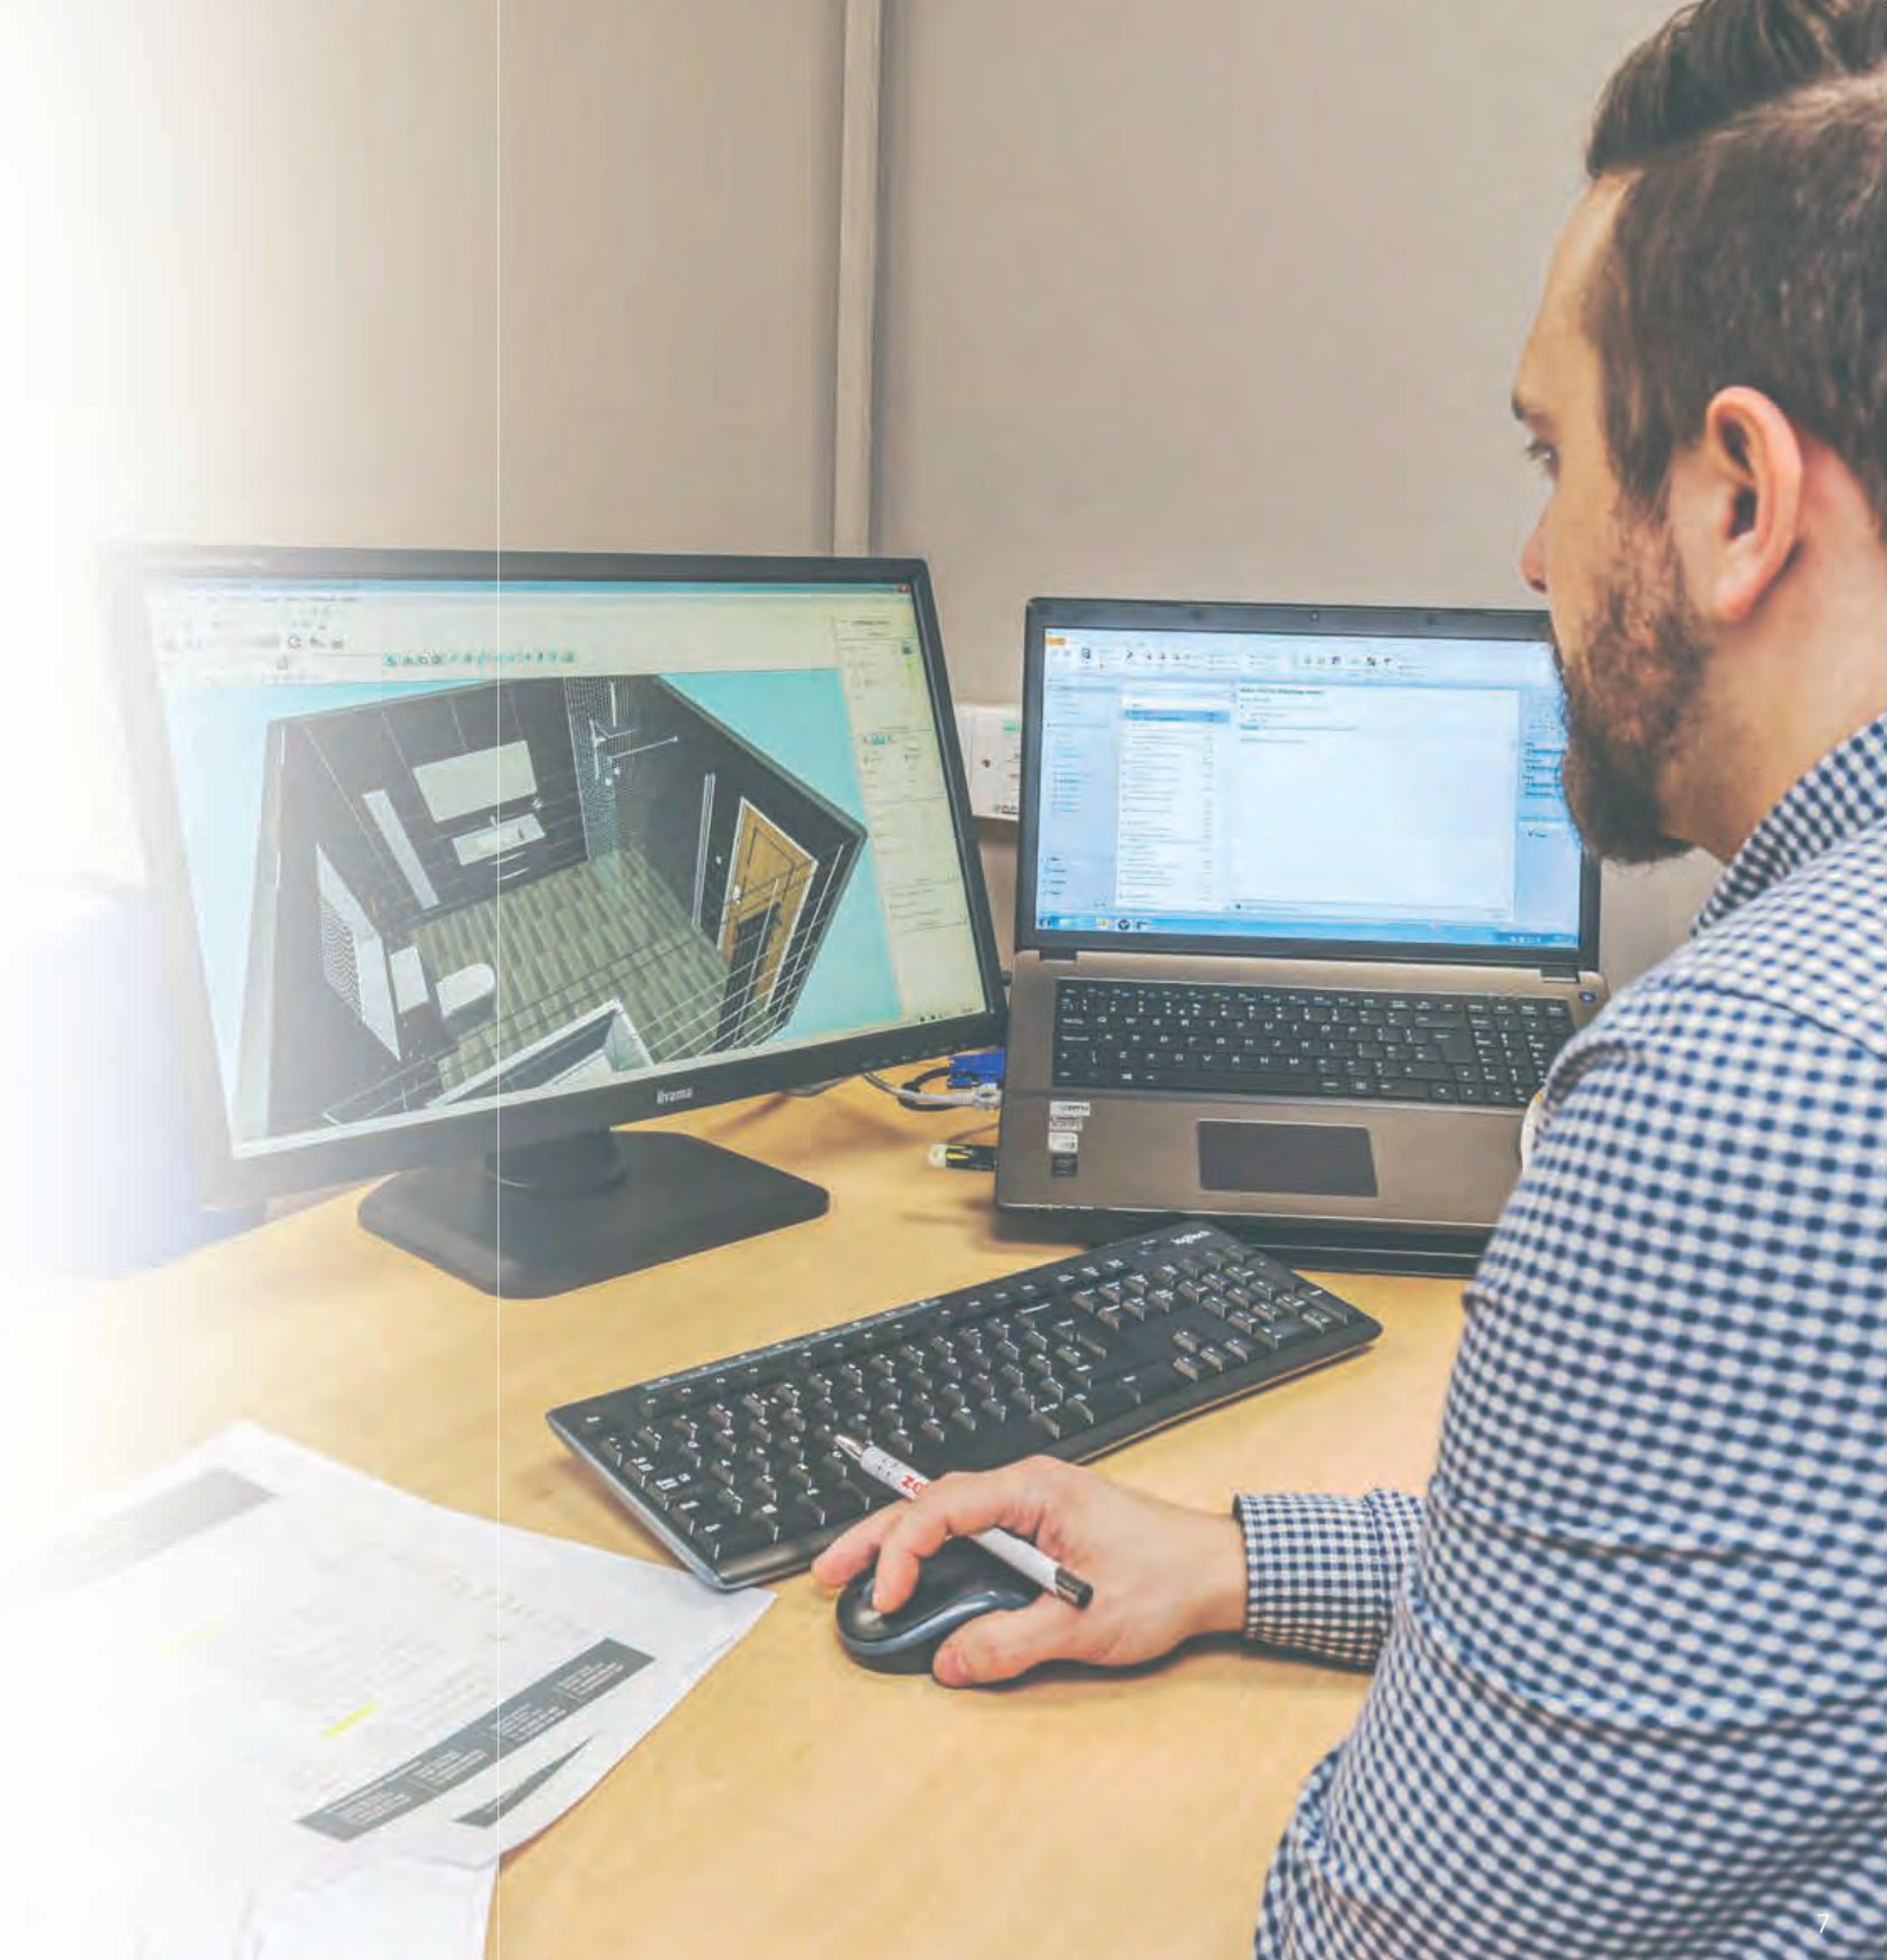

3D design software allows you to see what your new space will look like before anything is ordered, meaning there are no surprises. We combine precise measurements and specific product imagery to provide a realistic view of what your room will look like. We can make alterations quickly and easily, even try out different placement of units with a few clicks until we've got the layout that works for you.

## Involvement with the design process

Sit with a designer, see your ideas come to life and explore different options together. With a few clicks we can change the colour of flooring, add an island or wall unit or replace a bath with a walk-in shower. Even show you the details of tile grout width, depth, colour and alignment. The process helps you see how every design decision you make comes together.

## Bespoke detailed plans

We'll share photo-realistic images with you to take away as well as 2D plans and elevations which record your decisions and preferences. We want you to be delighted with your choices. Having time to reflect on the overall look and details at home is an important step towards getting the perfect end result.

# Kitchens

We know the kitchen is the heart of any home, and that replacing it isn't an everyday decision. You'll want products with great functionality as well as a design you'll enjoy for years.

Take a look at the kitchens we offer, from traditional Shaker styles to contemporary handleless finishes. Get inspired to bring a new lease of life to your space.

# Our kitchen brands

## Rotpunkt

Recognised internationally for over 75 years as a quality brand for premium kitchens, Rotpunkt supplies high-end, German-made modern kitchens equipped with the latest technology.

Pictured: Rotpunkt two-tone Zerox kitchen in Abbey Split Oak and Arabica with integrated illuminated cabinets and matching living room bookcase furniture.

## Sheraton

The Sheraton kitchen collection has been developed to ensure there is something for everyone. Choose from modern, Shaker and traditional kitchens in a superb range of colours and finishes.

Pictured: Manor House two-tone painted Shaker kitchen in Sandstone and Anthracite.

## Symphony

Fitted kitchens in styles from contemporary to country, Symphony offer kitchen lines for all tastes. From the sleek, modern Linear range to the more traditional Classic range, Symphony offers you popular styles at affordable prices.

Pictured: Contemporary In-Line Alta kitchen in Gloss Pure White.

Rotpunkt Ergo Zero FL in New Forest Oak and Memory R20 FL in New Forest Oak.

Rotpunkt Zerox Gloss cabinets in White and Carbon for a striking finish in classic black and white.

Traditional look Bernice kitchen in Truffle, combined with modern open shelving and glass framed doors.

# Rotpunkt

The innovative German kitchen manufacturers Rotpunkt are real specialists in top quality fitted kitchens. With a reputation for exciting design, Rotpunkt are known for superb high gloss finishes, sleek handleless doors and drawers. They offer an exceptional choice of finishes: 92 front colours in over 100 ranges, 34 handle colour options and 20 interior cabinet colours.

Create your own unique colour combination

The colour and style of cabinet fronts determine the look of your kitchen and we know that tastes vary. Choose from more than 3,600 possible combinations to find the right design for you.

# A contemporary kitchen for Stephanie Wilcox

Designed by **TURNBULL**

When a client is after a certain look for a new kitchen, and is finding the choice overwhelming, our design team can really help. They are an invaluable source of ideas and inspiration, ready with suggestions and bespoke solutions for a range of budgets.

This contemporary kitchen achieves a sleek, stylish look with two-tone units, light-reflecting marble effect worktops, warm wooden flooring, and bold black accent details on units, the cooker hood, appliances and fittings.

With an open plan layout, it's a good idea to create 'zones' in order to define living, kitchen and dining areas. In this T-shaped room, design consistency is achieved by stretching the units beyond the kitchen area into the adjoining space.

Coordinating kitchen and living room units in Rotpunkt's Carbon and Oak style finishes are the key to creating an effortlessly flowing space.

3D drawing: from idea to visualisation.

“ The result looks amazing, even better than our expectations! The quality and service are first class.

We wanted a modern looking design and the staff in the showroom were really helpful. We had lots of ideas and examples to look at.

The design team were amazing and worked closely with us to find our perfect design. The whole experience ran smoothly, professional from ordering to delivery. ”

Stephanie Wilcox  
Ruskington

Sheraton In-Line kitchen units in Gloss Ivory.

Sheraton Woodgrain Avola kitchen units in Brown Grey and Champagne.

Sheraton Edwardian painted kitchen units in Light Grey.

# Sheraton

A stunning collection of luxury kitchens that are crafted around the principles of one of our greatest furniture makers, Thomas Sheraton: Thomas Sheraton:

*"Good design should unite elegance and utility and blend the useful with the agreeable."*

Durable, high quality kitchens combining the latest manufacturing techniques with the elegance of British furniture heritage and traditions. With modern and traditional ranges, Sheraton gives you the freedom to create your dream kitchen from top to bottom.

## Colour Palette

Your choice of doors and colours will define the whole look and feel of your new kitchen. Choose from thousands of combinations to create your perfect, unique space with over 15 painted options; even the handles can create an impact - see more on page 24.

Mill Apartment:  
Sheraton Cube kitchen units in light grey with Platon Duropal  
worktop and white bevelled Subway tile splashback.

# Barn conversion at The Old Granary

Designed by **TURNBULL**

We love these light, bright contemporary holiday apartments created out of barn buildings at The Old Granary. The clients' choice of grey limed look vinyl wood flooring, plain white walls with oak doors, balustrading and exposed beams creates a clean, minimalist style.

The kitchen areas are uncluttered: gloss white subway tiles with bevelled edges laid in a traditional stretcher brick bond pattern above a seamless light grey worktop. Sinks are undermounted with drainage grooves integrated into the countertop whilst the monobloc tap subtly nods to farm kitchens of earlier times.

Mill Apartment

Gable Apartment:  
Sheraton Shaker style kitchen units in Nouveau Cashmere with white bevelled subway tile splashback and work surfaces in Nordic Melange.

Gable Apartment

Kitchen units, finished in neutral colours with unobtrusive stainless steel handles, are discreet and simple. Together the designer and owners have created delightfully restful, comfortable and calm spaces to make visitors feel very welcome indeed.

The apartments have subtle differences which make each space unique whilst keeping the same pared back colour scheme, tiling and flooring throughout. In the larger Gable apartment, the kitchen features Shaker style unit fronts for a more homely feel, whilst the Mill apartment gives off a modern vibe with flat-fronted units. Each space has been carefully considered according to its intended users.

Gable Apartment

Artisan® Bristan sink mixer tap and integrated drainage grooves adjacent to the undermounted sink.

Gable Apartment

Symphony New York contemporary kitchen units in Indigo.

Symphony In-Line Alta Gloss two-tone kitchen in Dusk and Pearl Grey with sleek, wide black handles.

Symphony two-tone Classic Ashbourne Shaker style kitchen in light, complementary Duck Egg and Ivory.

# Symphony

In styles from contemporary to country, Symphony offer beautiful fitted kitchens, skilfully crafted in Yorkshire. Achieve a designer look on a budget and in the knowledge that your kitchen will last for many years to come.

Kitchens in the modern range feature handleless cabinets, matt, wood and gloss finishes. With clean lines and the latest technology, these contemporary designs bring style and functionality to any home.

The Classic range offers welcoming country kitchens with timeless Shaker styling. Beautiful hand-painted or wood-finished units bring real charm to the heart of a home and create a welcoming space.

## It's all in the detail

From subtle textured and woodgrain effect doors, to smooth matt and high gloss doors, let your personality shine through in your kitchen. Can't choose between colours? No problem, you can opt instead for a two-tone kitchen with units of complementary colours in the same space. A look which is very on trend at the moment that works well in both traditional and contemporary kitchens.

**Symphony**<sup>®</sup>

# Personalising Your Space

## Handles

Simply upgrading the cabinet handles from the standard options can dramatically alter the whole look of your kitchen. Explore our extensive range of handle options - everything from chrome-plated and hammered metallic handles to traditional wooden round knobs.

Perhaps you're thinking of going for a contemporary handleless look with an inset or J-pull cabinet style - sleek and minimalist. We work with you to define your style and choose an option that complements your cabinets.

Sheraton Manor House Kitchen in Sage Grey and Manor House Oxford Blue.

Symphony Woodbury In-Line kitchen in Gloss Anthracite with Yellow glass splashback.

Symphony Plaza two-tone contemporary kitchen units in Cobble Grey & Porcelain.

## Colour Options

Make a statement with colourful splashbacks and two-tone cabinets, or opt for sophisticated simplicity with muted colours.

With hundreds of colours and textures, and finishes in matt and gloss, tap into our designers' experience to help you make the perfect choice.

## Design Tip

Make small kitchens feel larger by choosing wall cabinets in lighter tones and saving stronger colours for base units.

# Worktops

Choose from a wide range of colours, finishes and thicknesses for a hard-wearing worktop surface to match your chosen cabinets.

## Laminate

Durable kitchen worktops with the look and feel of freshly sanded wood or washed stone. Enjoy the design freedom of laminate and select a worktop surface for both unrivalled performance and long-lasting looks. Low and high gloss, matt and textured finishes from rustic woodgrain to shimmering crystal, all available with matching splashbacks and upstands.

## Real Wood

A traditional option that looks great in Shaker style kitchens and modern kitchens alike. A wooden countertop will make a statement in a modern kitchen where the woodgrain contrasts with the sleek finish of modern cabinets. Real wood will add character and warmth to a kitchen and work with any colour palette.

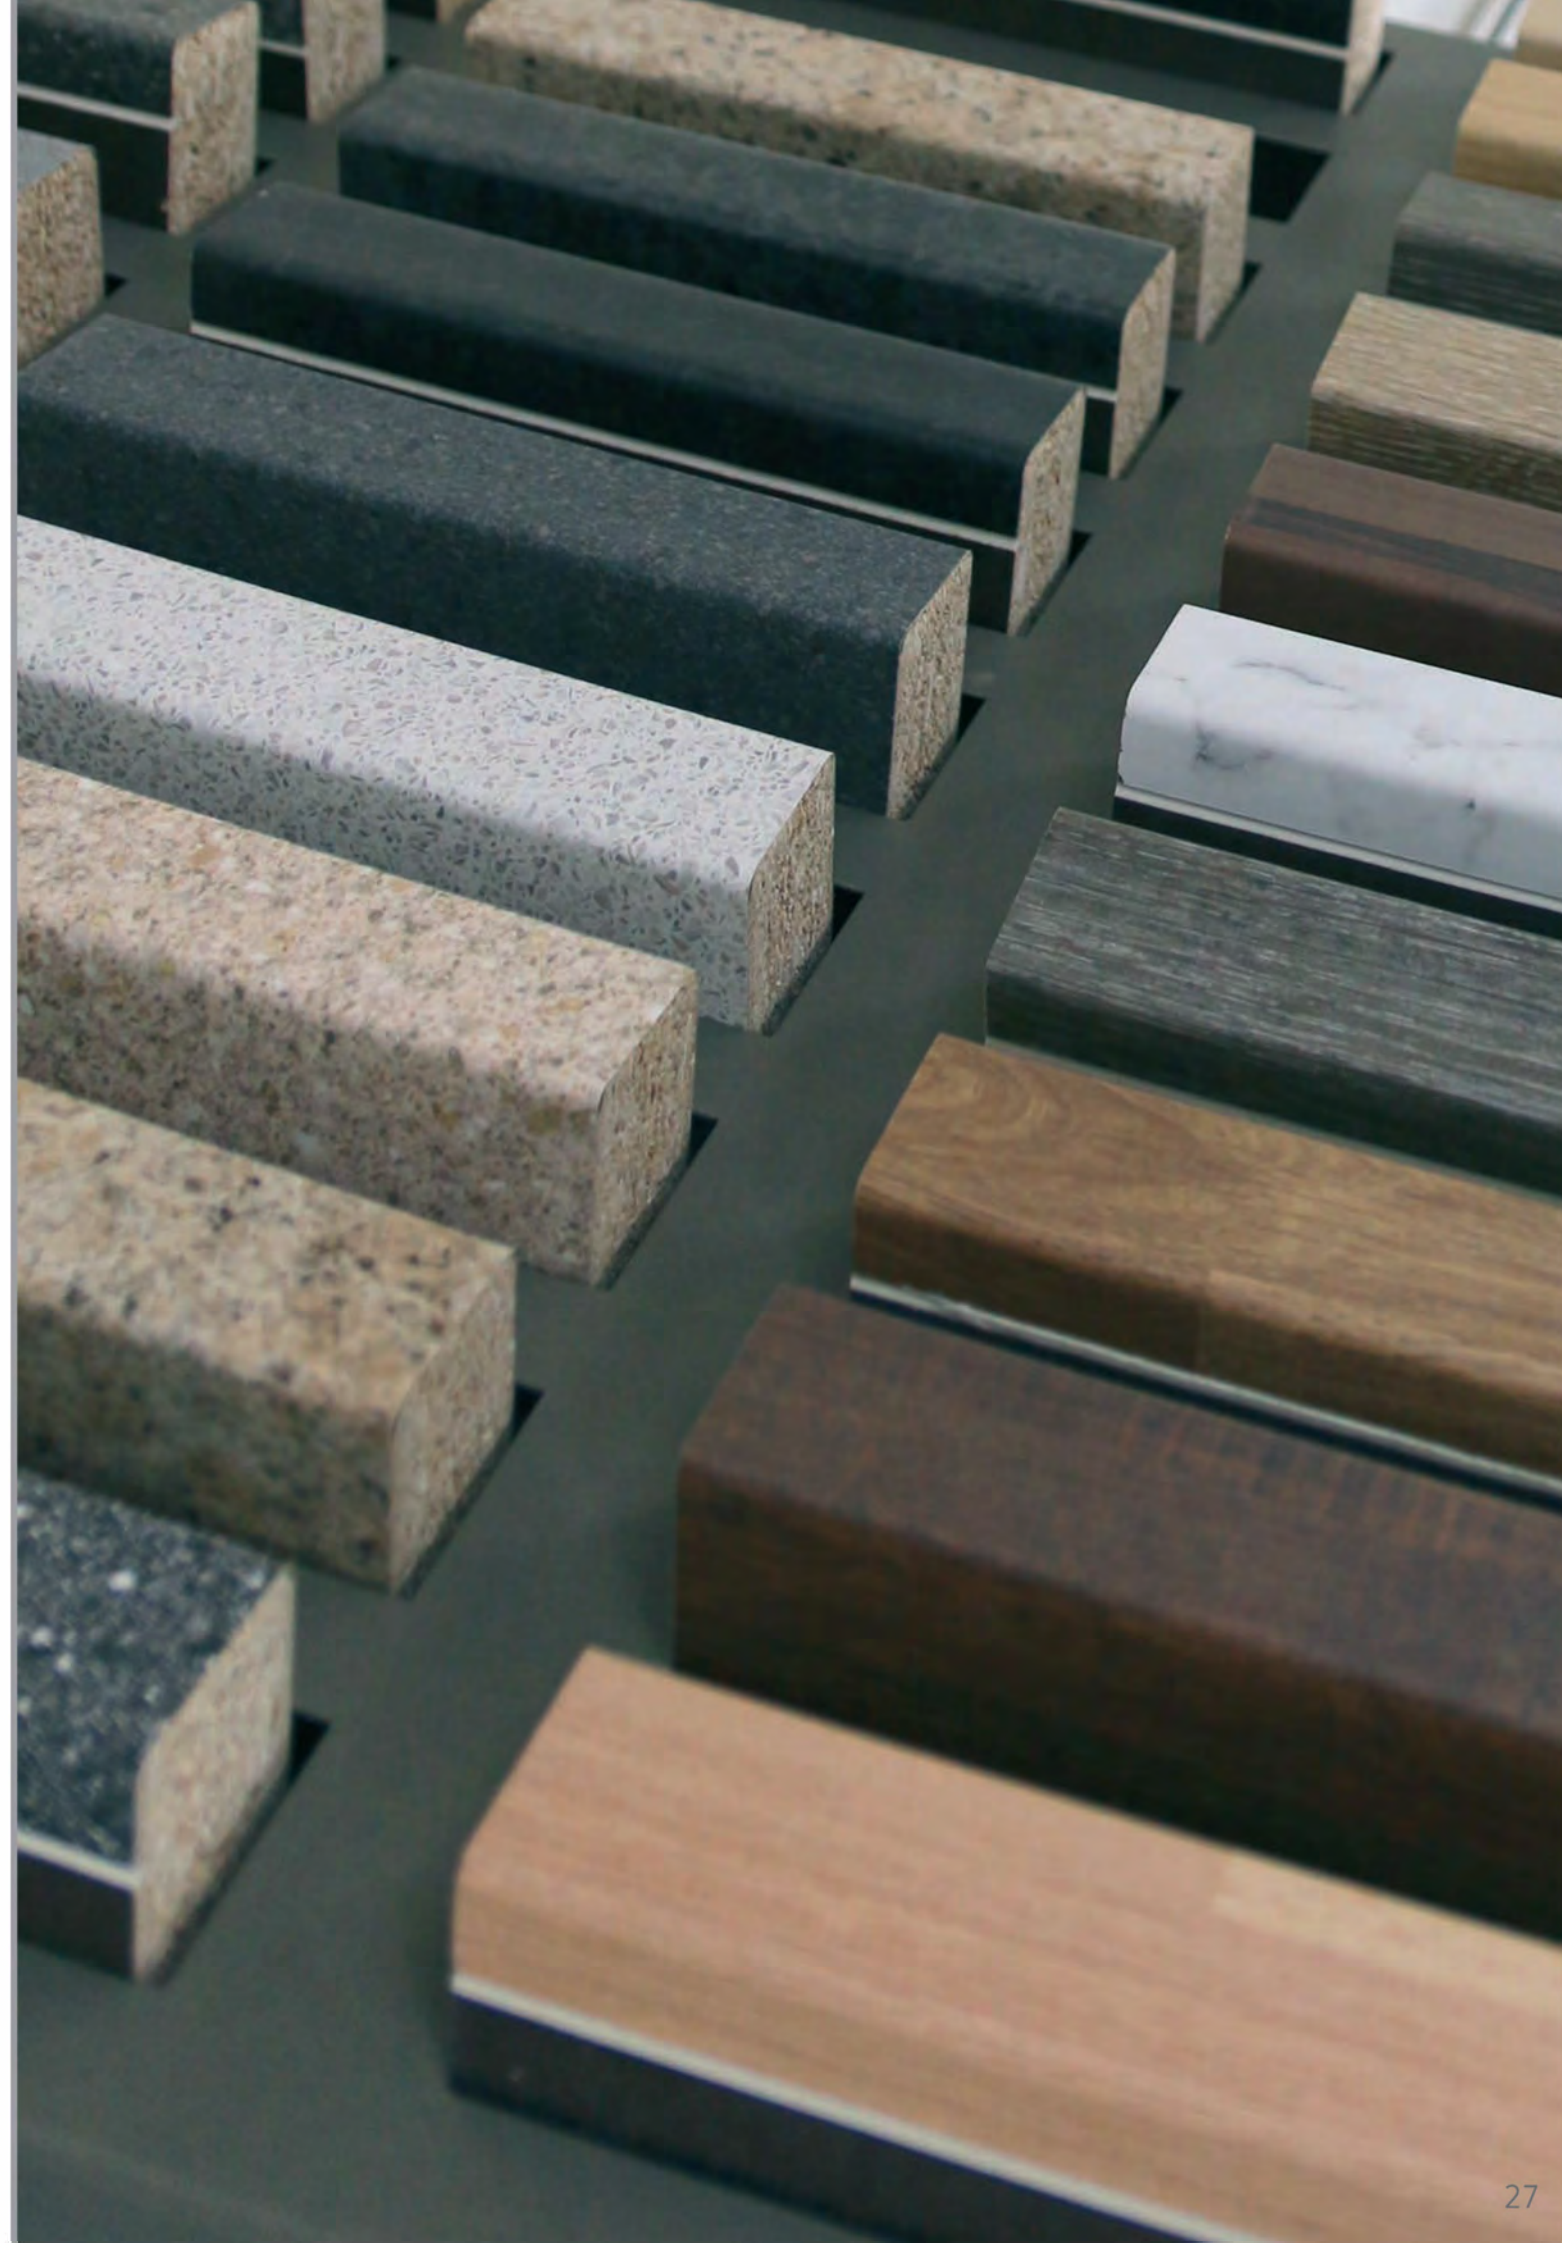

## Quartz

Invest in a timeless beautiful Quartz worktop. With a range of statement colours or natural stone finishes, durable Quartz worktops suit both traditional and contemporary kitchens. Customise your Quartz worktop by selecting thickness, colour and patterning and enjoy its hygienic, non-porous and stain-resistant qualities for years.

## Breakfast Bars

A great space-saving idea and ideal for informal entertaining. Using a different material for a countertop that doubles as a breakfast bar can define it as a multi-purpose area. Whether you're looking for a cantilevered option as in Stephanie Wilcox's kitchen (pages 18-19) or a breakfast bar which extends outwards with a waterfall gable end, we have options to maximise your space.

# Storage Solutions

A kitchen with clever storage is a kitchen you'll love forever. Hidden solutions like drawer dividers, interior drawers, corner pull-out cabinet racks and segregated waste disposal bins help keep life organised every day.

Internal drawers of varying sizes available to make organisation simple.

## Drawer Organisers

Utilise the space in your drawers by selecting clever systems to segment your kitchen essentials. From cutlery organisers, to pan drawer management systems and wooden peg dividers, choose from a variety of options to make the best of your storage.

Pan drawer with Flag organisation system - where each pan has a set place.

Large drawer with timber plate stack organisation - an adjustable peg board allows you to create areas for specific sized dishes that can be easily tweaked.

Keep your waste and recycling disposal out of sight in a cabinet which helps you sort recycling before it goes outside.

A large built-in larder pantry keeps all your essentials in one place - easy to access but hidden from sight too.

Extending shelving in corner cabinets allows easy access to items at the back.

Love entertaining? Then a dedicated wine rack or wine chiller could be a useful storage option for you.

Short on space? Consider a pull-out larder for easy access to your stores which keeps everything neat and out of sight.

# Kitchen Appliances

Complete your kitchen with appliances chosen for their impressive design and exceptional efficiency, manufactured by leading European brands like NEFF and Bosch. From innovative instant boiling water taps to ovens with the latest integrated technology, we offer appliances that will make a difference to your every day and make using your new kitchen an absolute joy.

Hobs

Ovens

Range Cookers

Microwave Ovens

Coffee Machines

Extractors

Dishwashers

Steam Appliances

Integrated Cooling

Washing Machines

## NEFF

NEFF appliances continue to push the boundaries of what is possible with innovative cooking technologies and time-saving solutions. The modern designs, in black glass and brushed steel, are made from high quality materials that perfectly coordinate with your kitchen.

NEFF 60/40 integrated fridge freezer.

NEFF gas hob with 9 precise heat settings with Flameselect.

NEFF downdraft extractor hood and Flexinduction hob.

### NEFF Slide&Hide® Oven

When you're passionate about food, nothing should get in the way of your cooking.

NEFF's unique Slide&Hide door is the only oven door that slides away under the oven cavity. With quick access to the oven, basting, tasting and monitoring dishes is much easier.

See it for yourself - all of our showrooms have working kitchen displays.

NEFF Slide&Hide Pyrolytic oven.

As seen on the Great British Bake Off

Bosch stainless steel double oven.

Bosch contemporary stainless steel refrigerator with StayFresh compartments.

Bosch FlameSelect gas hob.

Bosch electric hob with clever CookingSensor and PerfectCook and PerfectFry settings for precise cooking.

Bosch dishwashers - integrated options that fit seamlessly with your units.

## Bosch

Bosch home appliances are all about German efficiency and design. Their exceptional performance, technical specifications and superb reliability make everyday tasks so much easier. Ovens, hobs and microwaves as well as fridge freezers, dishwashers, washers and dryers are all integrated, intelligent products with A+++ energy efficiency ratings and innovative, helpful programming.

## Extractor Fans

There are many ways to rid your kitchen of steam, odour and grease created by cooking. You can have a fan that is hidden 'in plain sight', disguised as a lighting fixture, a pop-up downdraft extractor, or even a fan that's integrated within the hob to avoid an overhead installation.

Pop-up downdraft hoods are ideal for hobs on island units as they are installed inside the worktop and suitable for use with any hob. They allow an unobstructed view of your kitchen with the benefit of a sleek, clean surface when not in use.

Another option is to choose a hood which doubles up as overhead lighting. Make your extractor hood a clever design feature, rather than purely practical.

Integrated venting hobs have the extraction hood built into the hob surface providing highly effective removal of steam and odours. They are an ideal solution for an island unit as you will not have to install a wall or ceiling hood.

## Refrigerators

Whether you're after a fridge/freezer combination, a large American style fridge or a separate fridge and freezer; we have a range of solutions for your kitchen.

Deciding on a particular model or style is important to think about early on in the kitchen design process. Kitchen units need to be planned around appliances like refrigerators, particularly if you opt for integrated options to achieve a seamless look.

## Dishwashers

We all lead very busy lives and dishwashers have become essential in any modern or family kitchen. Choose from top brands, everything from slimline designs perfect for a single person or couple, to large capacity models designed for busy families. All offering eco wash cycles and quick rinse options.

# Technology

Discover how technology can create a time-saving, vibrant kitchen at the heart of your home. From smart appliances with apps to give you instant control wherever you are, to the little extras. We can help you choose the clever technology to make your kitchen work that little bit harder for you.

## Clever cooking

Let your oven choose the best temperature and time for your recipe. Opt to slow down your cook time, or even select different cook programmes for different dishes. Ovens with intelligent settings allow you to programme different shelves to cook at different temperatures.

## Self-cleaning ovens

Cleaning the oven isn't anyone's idea of fun. With a self-cleaning setting, Pyrolytic ovens heat up to an extremely high temperature, around 480°C, burning away any grease and debris. All the clean-up you have to do once the oven has cooled is wipe away the fine ash. Easy.

## Keep your surfaces clutter free

If you use appliances or gadgets with cables, then a nifty way to keep surfaces clear is to install pop-up power outlets - providing plug sockets when you need them that can be hidden away when you don't.

## Coffee addict?

Why not add an integrated coffee machine for a great cup of coffee at the touch of a button. For tea aficionados, take advantage of a boiling water tap and say goodbye to your kettle!

# Lighting

Good lighting in a kitchen makes it a more enjoyable place to spend time in. There are many options to choose from: pendant lighting, ceiling lighting, wall-mounted fixtures and lighting integrated within cabinetry.

Show off your pots and pans with internal cabinet lighting and illuminate your work surface with LED downlighting. Or zone an area by installing low level plinth lights - choose lighting to accentuate different features within your space.

### 1. Cabinet lighting

Illuminated glazed cabinets are the perfect way to show off decorative items.

### 2. Accent lighting

Focus lighting on a particular feature of your kitchen.

### 3. Under cabinet lighting

See exactly what you are doing when preparing food.

### 4. Plinth lighting

Choose from spot lights (pictured) or strip lighting for a continuous 'glow' beneath units.

Pendant lighting - placement above kitchen islands or dining tables can help create designated zones.

Drawer lighting - helpful storage illumination.

# Sinks & Taps

Your choice of kitchen sink and fitting is as much a design statement as any other kitchen feature. Whether it's a larger double bowl basin for a busy family kitchen, a deep Belfast sink for a farmhouse kitchen, or a contemporary under-mounted option, we can find the right basin to suit your style and complete your look.

## Undermount Sinks

Very on trend at the moment, the installation is below the countertop and the weight is supported by the cabinet underneath. This creates a clean, uninterrupted line of the countertop allowing you to sweep debris straight into the sink.

## Composite Sinks

Formed under high pressure using natural resources to be incredibly durable, composite sinks are available in a variety of colours and finishes from granite to anthracite.

**BLANCO**  
GERMANY

### Blanco

Utilising SILGRANIT, a tough granite composite, Blanco sinks produce a stylish alternative to stainless steel sinks. This high quality German brand offers you practical, durable and immensely individual kitchen sink options.

## Inset Sinks

The most conventional method of installation where the sink is inserted from above into a prepared cut-out in your worktop. With the flat rims of Blanco sinks, you can achieve a flush-fit look with inset sinks whilst still benefiting from easy installation.

## Stainless Steel Sinks

Stainless steel sinks are the most affordable and easy to maintain option which is probably why more people buy stainless steel sinks than any other option. When well-maintained they will keep their shiny look for a long time without staining or tarnishing.

## Ceramic Sinks

A classic in farmhouse kitchens, ceramic is a great option for a traditional look whilst being hard-wearing and naturally hygienic. With built-in overflow and deep basin, Belfast sinks are the most popular of the ceramic types. However there are a range of styles to choose from.

As seen  
on TV!

## Quooker

Clever Dutch design and the new kitchen essential, the Quooker tap is the only tap which instantly heats to 100°C to dispense boiling water whenever you need it. Immediately. Economical, ultra-safe and super-efficient, Quooker taps have a child-proof handle and insulated sides, putting safety first. Available in eight tap designs and three finishes to suit a whole array of kitchen styles.

Quooker Taps dispense water in a range of ways: room temperature, boiling, chilled, sparkling, as well as conventional hot and cold.

## Choosing the right tap

A huge range of kitchen mixer taps are available at our showrooms. With traditional and contemporary styles available we have products to suit any home and budget.

# Open Plan Living

Kitchens are not just for cooking any more. They are spaces for entertaining, merging with living areas, so why not harmonise them to look as one? Keep the style going through your home with living and dining room furniture to match your kitchen cabinets.

This Rotpunkt sideboard, from Stephanie Wilcox's kitchen, is designed for open plan living. In the same style as the kitchen units, the shelving provides a decorative display with useful storage underneath.

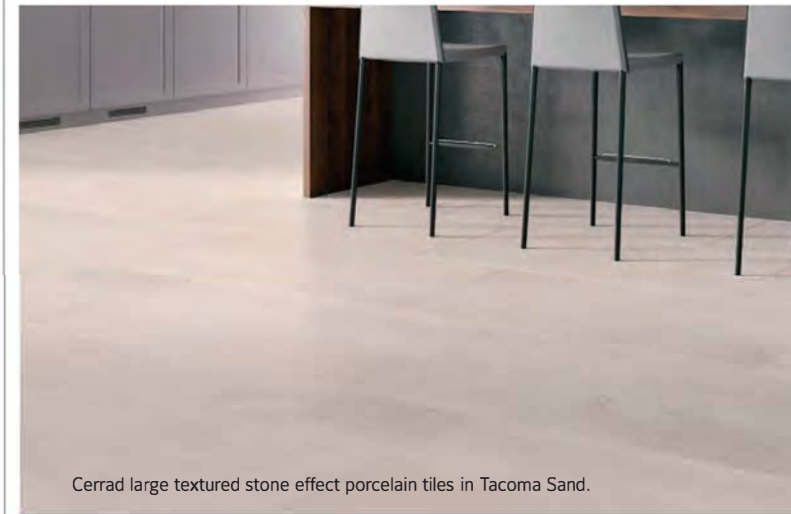

Media cabinets are also available from the same range. An example of Rotpunkt's design-led commitment to discreet storage solutions throughout the home.

See more of Stephanie Wilcox's kitchen transformation on pages 14-15.

Also available in the range are dresser units, drinks units and stylish open shelving which can be used throughout the house. Speak to your designer about how to carry the look to other rooms.

Quickstep vinyl flooring in Cotton Oak Grey with saw cut finish.

Cerrad large textured stone effect porcelain tiles in Tacoma Sand.

Marble effect high gloss porcelain tile.

Traditional real wood flooring.

# Flooring

## Vinyl Flooring

Soft, warm, noise-absorbing vinyl flooring by Quickstep is the perfect choice for busy kitchens and family bathrooms. Its tough, protective top layer will give you flooring that's resistant to scratching, staining and water damage. Available in a choice of natural colours to suit any interior.

## Porcelain Tiles

Porcelain floor tiles come in polished, matt, textured and smooth finishes and in a wide range of base colours to complement your design. Because they are fired at very high temperatures, the tiles formed are extremely robust. If you're looking for a durable flooring option, porcelain tiles will last a lifetime.

## Cerrad Floor Tiles

With great technical properties and impressive good looks, Cerrad tiles are also durable and easy to clean. Available in a variety of natural colours and designs from concrete and stone to marble or wood effect. Choose an oversized tile for a contemporary look.

## Real Wood Flooring

A timeless classic - hardwood flooring will never go out of style and looks great in a modern or traditional kitchen. Highly durable and resistant to wear and tear, real wood is a great investment in any home.

## Bathrooms

Whether you're after a traditional or contemporary look, we have styles to complement all tastes. Combine the latest design trends with the way you actually use your bathroom to get the most from your space. Not everyone likes to use a bathtub, opting for a shower instead and some people couldn't live without two basins in their en suite. Both are design choices, altering how a room will look but they are also ways to make your space more functional. When you work with Turnbull, our expert design team will chat with you to find out how you use your bathroom and create a unique, hard working space that echoes your personality.

Space-saving corner shower enclosure with curved door, double shower heads, wall-hung vanity unit and steam-free mirror. On display at our Newark Showroom.

# Renovation Success

Designed by **TURNBULL**

A chilly room in an old extension is transformed into a sleek, modern bathroom that is both warm and spacious.

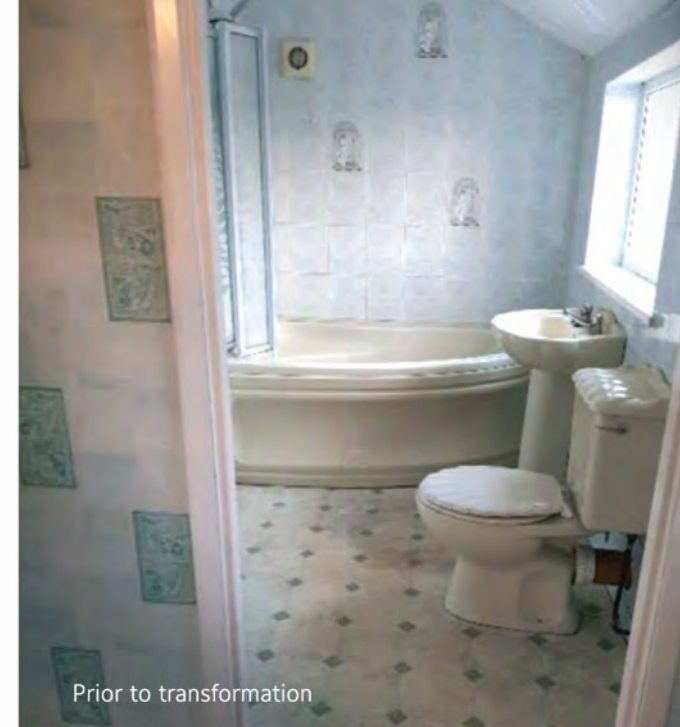

After discussion with the client, it was decided that in order to make room for a separate shower, an internal wall would have to be removed. Whilst being a big decision for the client, it has certainly paid off! The shower, glass enclosure and bath are all from the same range and work together to create a modern look with distinct lines.

Designer Greg, from our Boston showroom, worked closely with the client to create this bathroom. A key feature in the room is the double-ended bath, ensuring that this space is one of luxury. Comfort is created using two big feature towel warmers by Zehnder in Volcanic Grey, chosen for their effective heat emissions.

Fitted furniture, toilet, basin and bath taps are all by Roper Rhodes. The slimline design makes it easy to move around in the space with a large, wide-format LED illuminated mirror that floods the bathroom with light.

The transformation has turned a very dated, dark room into a beautifully bright space that is luxurious and modern. Both client and designer are happy with the end result.

To see more like this, visit [www.turnbullsonline.co.uk/showrooms](http://www.turnbullsonline.co.uk/showrooms)

# Contemporary Bathrooms

Looking for a bright, clean and uncluttered bathroom? Enjoy the clever simplicity of our contemporary designs. Choose from frameless shower enclosures, wall-hung cabinets and toilets with concealed cisterns. Sleek profiles, discreet controls, handles and hidden plumbing create a luxuriously minimalist environment.

Create a strong focal point with a distinctive countertop basin. Formerly seen as a design trend, countertop basins have now become a staple of many modern bathrooms.

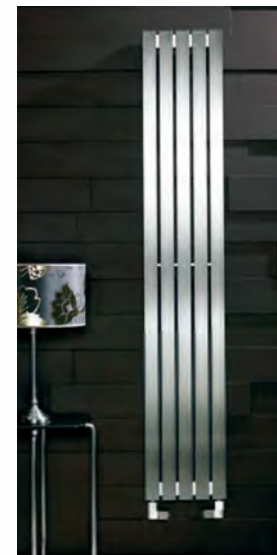

Alternatively, take the features of a traditional vanity unit and give it a contemporary look. Light-reflecting gloss finishes and the option of handleless drawers will give you essential storage which is both minimalist and practical.

## Radiators and Towel Warmers

Not only functional, radiators in the contemporary bathroom make a design statement. Handsome vertical column radiators take up little wall space but create warmth and comfort in even the largest family bathrooms. Tall ladder radiators keep everyone's towels beautifully warm and fresh. Discover radiators in bronze, hammered silver and gold look finishes for a strong contemporary look.

### Design Tip

Radiators and towel warmers in dark colours are more heat-efficient than their classic chrome counterparts. Consider opting for an Anthracite, Black or Grey finish when choosing your radiator for a bold design choice and a little extra warmth.

# Wet Rooms

Wet rooms are an increasingly popular bathroom choice, doing away with the need for a full shower enclosure. They are a practical, modern and desirable addition to any home. With their walk-in design, wet rooms are an accessible option for all ages – simply step behind a shower screen for the perfect showering experience.

## Why choose a wet room?

Wet rooms can be installed anywhere from a ground floor extension to a loft conversion. Easy to clean and maintain and completely waterproof, wet rooms are the perfect option in rooms of all sizes and create a spacious feel thanks to their open design.

# Shower Panels

## The smart way to transform walls

The alternative to traditional tiles, shower panels offer a seamless, waterproof shower surround. You'll find a choice of vibrant colours and finishes to suggest elegant marble, cool quartz, or warm natural wood. Go for a classic tiled look, or something completely different like a brick or concrete industrial effect. Why not combine different finishes for an exciting bespoke design to add personality to your bathroom? Easy to install and keep clean, they're the perfect choice for the whole bathroom.

### Design Tip

If you're designing a smaller bathroom and want to have a wet room, you still can. Including a single shower screen, rather than a full enclosure, is a stylish way to keep an open plan space and prevent splashback from the shower getting on other surfaces in your bathroom.

# Space-saving Bathrooms

When space is at a premium, consider maximising your bathroom with fitted bathroom furniture. Cabinets and drawers are combined with a vanity unit and back to wall toilet in one neat installation. This streamlined look offers bags of storage and useful countertop space, and it'll free up room for a bath or walk-in shower. Pair with handleless cabinets and frameless shower enclosures for a clean modern look - both give a sense of uncluttered openness that really helps in a compact bathroom.

A customer transformation designed by the team at Brigg featuring statement Jerico Grafito brick tiles, Eco Bathrooms vanity units in Image Gloss Dakota with bold Multipanel shower panels in Monsoon.

Planning a small bathroom can be challenging. How do you get an accessible layout that includes everything you need and still looks good? The answer: 3D design modelling and the experience of our talented design team. Find out more on page 6.

## Design Tip

A nifty option is to opt for a wall-mounted tap for your vanity unit or basin. Its narrower installation saves space and moving your plumbing directly into the wall will free up the area underneath for storage. You'll find a great choice of taps from traditional to modern, all available in our showrooms.

## Design Tip

A floating or wall-mounted vanity unit is both easier to clean and will free up floor space, making your bathroom appear bigger. available in our showrooms.

# Colourful Bathrooms

Ditch the white and create a bathroom with personality! Inject a splash of colour to brighten up a monochrome design or go wild with your favourite colour combinations. Use splashback tiles in vibrant colours to contrast with traditional white ceramic sanitaryware. From bold geometric floor tiles and shower panels in a rainbow of colours to painted vanity units, colour is most certainly an option in your bathroom.

## Shower Panels

Shower panels introduce colour and a sense of texture into your bathroom. Not only are waterproof panels a practical alternative to traditional ceramic tiles, they come in a wonderful array of finishes. You can even combine finishes to create a unique design.

If you don't want to change your whole bathroom, consider splashback wall coverings or feature panels to add interest to certain areas of your room.

## Don't forget the floor!

Whether you prefer laminate, vinyl or ceramic tiles, find flooring to complement your bathroom look in cool calm colours or dramatic designs. Choose a laminate for the texture and look of a warm, natural wood floor without its maintenance. Perhaps a luxurious marble finish in durable, anti-slip vinyl or a period mosaic of black and white tiles is for you? Or stick to classic, long-lasting ceramic or porcelain tiles and choose from traditional and contemporary designs and laying patterns to create different looks.

Too many options to choose from? No problem. We have an expert team of designers who have been doing this for years. We know what styles complement each other and can help you create the perfect space if you have an idea of it in your head already or you're not sure between options.

# Cloakrooms & WCs

Making the best use of space in the smallest room can be a challenge. A small space doesn't mean you have to go small on style. You can be bold in decor and have fun with lighting and accessories. Slimline and mini cabinets offer storage solutions in the tightest of cloakrooms. An integrated basin, cistern and toilet unit is a great compact option which delivers everything in one.

Cloakrooms and WCs don't have to be modern spaces. Pictured: traditional style bathroom with curved washbasin and traditional radiator with built-in towel rail.

## Designed down to the last detail

Our expert team will come to you, measure up your space, create a plan and design your future bathroom with you - all for no additional cost. Accurate 3D modelling software gives you peace of mind that the room you get will look exactly as you imagine it

Slim wall-mounted trough washbasins have a narrow profile which takes up very little room, ideal for small WCs and cloakrooms.

**Design Tip**  
Use larger mirrors in smaller spaces. Having a mirror extend across a whole wall will make any room feel larger instantly.

# Traditional Bathrooms

Love the idea of a traditional roll top claw foot tub? You can now have the convenience of the latest technology with an authentic period feel in your bathroom. Minimalist and modern isn't for everyone, especially if you own an older property. So here are bathroom designs with all the character and style of Victorian and Edwardian eras. From crosshead taps to high level ceramic cisterns, expect exquisite detailing combined with superb performance.

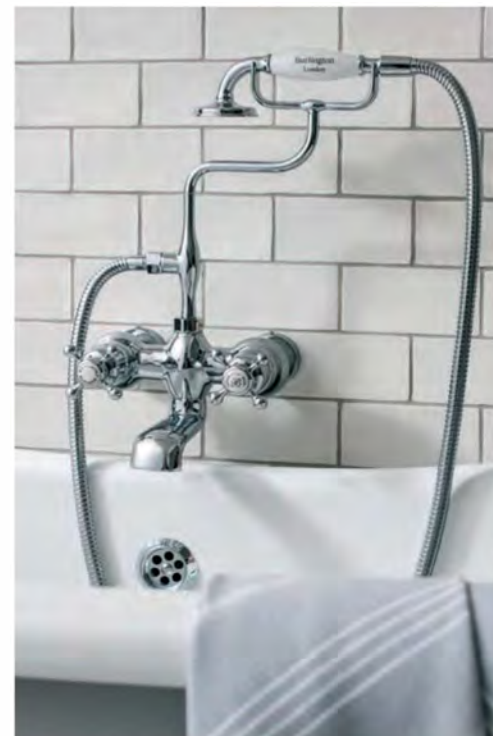

Period bath with bathscreen and concealed shower with digital control. Also featured - Edwardian rectangular basin with chrome washstand.

A classic feature in the traditional bathroom. Elegant roll top baths with bespoke feet options and deep soaking tubs are made for relaxation.

The epitome of a traditional bathroom - a high level cistern is true to the period era but benefits from modern plumbing efficiency. Choose from low, mid and high level cisterns to achieve the perfect look - pictured above is a mid level cistern.

Expect furniture in elegant muted colours with delightful design detailing from our traditional ranges. If you are looking for an exquisitely authentic traditional feel to your bathroom, our designers will work with you to create the look you're after.

## Classic Colour Palette

# Contemporary Luxury

Designed by **TURNBULL**

On this project we worked with a development company that specialises in building desirable family homes in prestigious locations. The development team were looking for versatile, high quality bathroom ranges that could offer design coherence throughout. The resulting beautiful and harmonious bathrooms contributed to the property's speedy sale.

Turnbull designer Zoe chose Deuco bathroom cabinets with fitted and modular options to allow the best use of all possible en suite space. Dueco wall-hung units leave floors free, featuring soft close drawers and hinges with lifetime guarantees for peace of mind. Their range of contemporary gloss paint and wood look finishes are subtle and luxurious. Light-reflecting 12mm Crystal worktops evoke a classic marble look that is very fitting for this substantial house.

The Duravit sanitaryware range ME by Starck is based around the idea of clarity and functionality, with the reduction of the unnecessary. These wall-hung toilets with automatic closing lids, fitted in every bathroom, embody this belief and are simple and timeless.

Statement countertop basins from Crosswater stand out in the clean, minimalist spaces and reflect both designer Zoe and the developers' commitment to design detail. Beautiful, extremely elegant, flared basins are a visual focal point in two of the en suites in the house.

Large HiB mirrors from the Spectre and Vega ranges bring lighting ambience and style to the rooms. Their integrated technology and steam-free design features bring essential convenience too.

Attention to detail and commitment to quality characterises this project. The resulting beautiful and harmonious bathrooms contributed to the property's speedy sale.

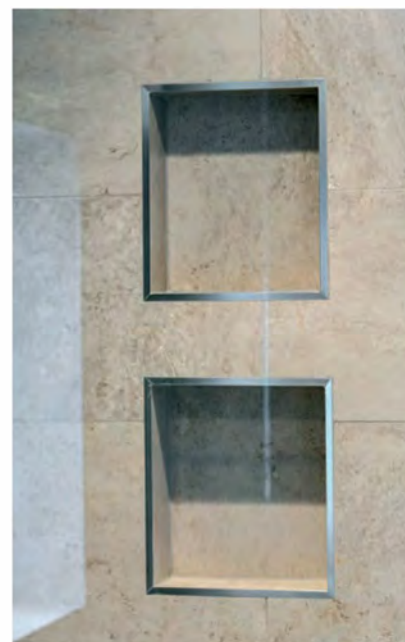

To see more like this, visit [www.turnbullsonline.co.uk/showrooms](http://www.turnbullsonline.co.uk/showrooms)

Master en suite: double Crosswater countertop basins with wall-mounted mixer taps and large HiB Vega LED illuminated mirror with touch activation and charging socket.

Cloakroom: Duravit ME by Starck wall-hung toilet with Crosswater basin and tap.

Storage doesn't have to mean shelves coming out from the wall. Consider recessed shelving for a clean look.

Are two basins better than one in your bathroom? Double basins not only add double the storage opportunity but are a practical solution for busy family bathrooms when schedules overlap in the morning.

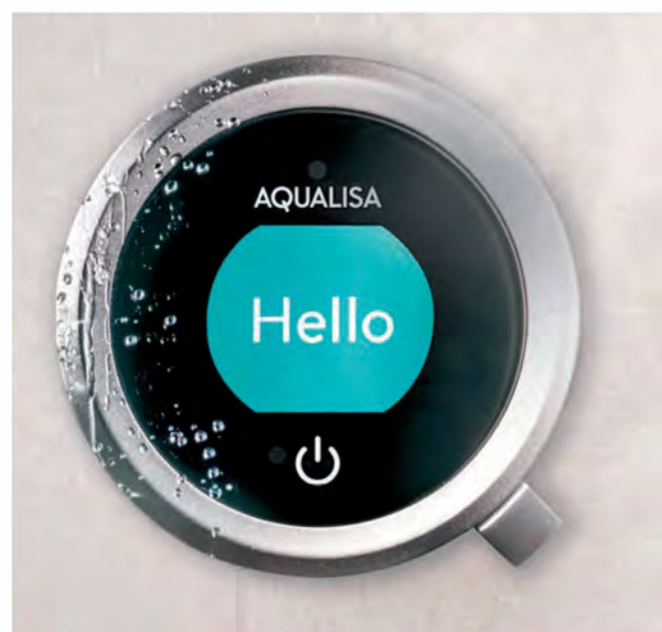

Guest en suite: Crosswater countertop basin with wall-mounted mixer tap and HiB Spectre LED illuminated mirror.

# The Finishing Touches

## Accessories

Add luxury to your bathroom with stylish matching accessories in classic and contemporary styles. Everything from soap dishes and dispensers, to toilet roll holders. You'll find a range of choices to suit your individual bathroom, whatever your style.

## Digital Showers

Customise your shower experience with digital technology. Touch controls, remote activation and pre-set options mean you can have individual settings to suit every member of the family. Smart controls let you keep an eye on water use and costs too. Aqualisa's superb range of digital showers with one button illuminated controls are simple for everyone to use.

## Lighting

Think outside the box with our exciting lighting solutions. Install a touch-sensitive illuminated mirror above a vanity unit for bright, white task lighting or transform showering experiences with coloured LED lighting. Banish the gloom and find responsive lighting options to suit your moods.

## Clever Mirrors

An illuminated mirror that never steams up - wouldn't that be nice? Choose from wall-mounted mirrors or mirror cabinets, all with in-built demister pads making steam a problem of the past. Or how about a mirror with bluetooth connectivity to listen to music whilst you're in the bath or shower, with your tech safely out of harm's way?

## Underfloor Heating

When putting in a new floor, don't forget to consider adding underfloor heating to the room. Safe, virtually silent and with zoned smart controls, underfloor heating is something that can be installed in any house, new or old, without the worry of increased energy bills. Get rid of radiators and free up space for your dream design.

# Our Partners

We work closely with a select group of brands in order to provide a complete offering for all tastes and budgets.

## Burlington®

Give your sanitaryware and furniture timeless elegance with beautiful, traditional, faithful reproductions of classic designs from the Edwardian, Victorian and Belle Époque eras with Burlington Bathrooms.

## zehnder

Designers of functional and decorative radiators and towel warmers in a vast array of designs. Zehnder are the only choice for radiators to suit both traditional and modern spaces.

## OUR HERITAGE

# TURNBULL

### It started over 125 years ago

Turnbull opened for business in 1895 in Sleaford, selling sand extracted from Ancaster Pit and gravel from Rauceby Warren. The company moved to new premises in Southgate, Sleaford, in the late 1950s with around seven staff. Now, we have nearly 200!

### A family-run business with excellent customer service

The Hopkins family have owned and run the business since 1986 and maintain the secret to Turnbull's success is its staff. Managing Director Gary Hopkins says:

*"We have always looked to employ people who understand our culture of offering first-class service to all our customers. And we are proud of the great relationships we have with our customers, many of whom return to us again and again for help with new projects."*

### Leading regional kitchen and bathroom retailer

As well as kitchen and bathroom showrooms showcasing a range of top UK and European brands, Turnbull have building, plumbing and heating branches in Brigg, Boston, Lincoln, Newark, Sleaford and Spalding. Our team members have a huge amount of experience and work closely with local tradespeople from builders to plumbers, ensuring every development and project is a success. We're a real one-stop shop for the local Trade where homeowners can benefit too.

### Price, quality and know-how

We work hard to ensure we bring the best new products to our customers at competitive prices. With the industry and product knowledge of our team members, we are confident we can supply the very best solution for your kitchen and bathroom projects.

## Where we are now

We've come a long way since our humble beginnings. We now have six showrooms in Lincolnshire and Nottinghamshire with over 100 displays to browse across Sleaford, Brigg, Newark, Lincoln and Boston.

Come and find ideas and inspiration for kitchens and bathrooms to suit your lifestyle and budget. You can get hands-on with the latest designs and samples, try out new products and see demonstrations of the latest appliances. Our designers are always on hand to offer free and independent advice on the most practical and appealing options for you.

## OUR PROMISE TO YOU

We strive for exceptional customer service from the moment you step into one of our showrooms, through to the completion of your project. With over 40 years' experience, our creative, knowledgeable designers will help you create your perfect kitchen or bathroom.

Partnered with Europe's leading brands with styles to suit all tastes and budgets, our non-commissioned staff offer independent advice to ensure you get the right result you're after. From our free design and planning service to our outstanding aftercare service, all our team members are committed to going the extra mile to ensure customers are delighted with the end result. The proof is in the feedback we get from customers:

*“A huge thank you to designer Jade and all the delivery teams, the finance team and particularly Sheila in aftersales for coordinating everything. You head a lovely team and all credit to you I have really appreciated all your hard work and am only sad now that I have no more work on my house to have done!!!”*

– Mrs Robinson
