WE LOVE WHAT WE DO

All of the Sheraton team share a common goal, to do things well, and in doing so, create carefully crafted kitchens that, in a world of rush and expendability, are skilfully designed and built to last.

We have a love for detail and perfection and we are dedicated to creating the consummate kitchen for our customers, with enthusiasm and passion, every day. Our enjoyment of the design process and the creativity we put into each part of your kitchen lends itself to the quality of the final product.

We love what we do and we are looking forward to sharing this journey with you.

WE LOVE
WHAT WE DO

WE KNOW YOU WILL TOO

We know the purchases you make for your home come from the heart, so it is important to choose the right kitchen that reflects your lifestyle and personality. Traditionally, when we think of a kitchen we see it as a cooking area, but at Sheraton we believe it is much more than that.

Planning your kitchen should be a unique and enjoyable experience, and we aim to pay the same care and attention we give all our designs to your latest home adventure. It is our goal that you will have a sense of excitement and emotion about your kitchen that will strengthen over time - that it will become a place where families gather, friends are treasured, and memories are made.

As Britain's leading supplier of quality kitchens we have enjoyed continued growth for over 25 years. Our state-of-the-art factory and manufacturing capabilities guarantee that we provide you with the quality and service you deserve. We make it our mission to provide the stability and reassurance required in today's uncertain market, and hold vast quantities of stock to ensure continued supply, with no hold-ups.

HER ROYAL HIGHNESS, THE COUNTESS OF WESSEX

Our warehouse and office complex was officially opened by Her Royal Highness the Countess of Wessex, GCVO, taking the factory footprint to 405,000 sq ft.

MADE IN BRITAIN®

Our quality kitchens are robust and durable with a stunning array of styling options. Our rigid cabinets are made to your order, using precision glue and dowel construction, creating a true rigid kitchen, with squarer, stronger cabinets and no visible screws or fixings.

Our kitchens have been awarded the Made in Britain status.

WE LOVE
WHAT WE DO

COMPLETE PEACE OF MIND

Our deposit guarantee scheme offers you peace of mind and certainty when you purchase a kitchen from any of our approved retailers.

If your retailer ceases to trade before delivery of your furniture order, we will guarantee to supply your kitchen furniture at the quoted price.

Therefore, you can rest easy knowing that once you have paid your deposit, your kitchen furniture is secure, no matter what happens.

PLANNING YOUR KITCHEN

IS THE TRIANGLE BEING OBTUSE

The kitchen triangle was based on the three main work areas: the sink, the refrigerator, and the stove. The purpose of the kitchen triangle was to allow you to move easily between working areas of the kitchen.

Often cooking is no longer the responsibility of one person in the modern household. Because many families now might have more than one cook operating at a time, the points of the triangles are now likely to be 'working zones' (the cooking, cleaning, prep and storage zone).

It is best not to focus on the triangle, but to think about how your family moves around the kitchen. You will then find out which layout works best for you, and the 'zoning' will fall into place of its own accord.

WHAT'S ON YOUR WISHLIST?

Analysing what you currently have in your existing kitchen versus what you need and want from your new kitchen design is the most important step. What appliances or luxury gadgets do you desire? Make a list of everything you've always wanted.

You can include more intangible ideas on this list that will help your designer get a feel for what you need. Do you prefer a cosy cottage style, or modern minimalism? Or even a mix of both?

Search online for inspiration. Magazines and brochures are useful resources too, furnishing you with the latest kitchen ideas. The more you see, the more you'll understand the style of kitchen you prefer and what will suit your home.

LET YOUR HABITS DICTATE YOUR LAYOUT

How do you use a kitchen? Do you like to entertain, or do you sit down as a family for a meal every evening? Do you need areas for the kids to do their homework, or a space that can be used as an office area? All these things should be taken into consideration, and your kitchen layout should be designed to perfectly fit your lifestyle.

Check out the shape of your kitchen - it will probably fit into one of the categories below. Use this list as a guide when searching for inspiration.

- The galley layout
- The L-shaped layout
- The U-shaped layout
- The island layout
- The peninsula layout
- The one-wall kitchen

CONVENIENCE COMES FIRST

To make full use of one of the most important rooms in your home, consider all the elements that will make this space work best for you.

Give yourself plenty of counter space to prep and allow more freedom while you cook. Don't clutter your countertops - hide everything away in nifty storage spaces with envy inducing pantry units and pull-out wirework.

Plan integrated appliances for a clean, streamlined look and position them for optimum performance. Anything that makes your life easier is always a plus.

EXPRESS YOURSELF

Do you want it to complement the style or period of your home or contrast it? To match the decor of your other rooms, or to stand out? What style of units do you want to go for? How will you use colour or bring texture into the room with materials?

All these questions can only be answered by you personally - so let your imagination run free (with a little guidance from the experts, of course), and check out the following pages in this brochure for a little more inspiration.

LET US INSPIRE YOU

Although all-white kitchens still remain as popular as ever, a dash of colour can lend a new lease of life to your kitchen.

Recently, a move towards natural and organic tones, colours and textures has become increasingly popular. Greens and warm neutrals combined with natural wood elements, such as oak and walnut are taking the kitchen world by storm.

I've always loved SHERATON kitchens. They're stylish, last forever and are beautifully made. Their colours are such a great way to express personality and can make your kitchen unique.

Steel Blue, Cove Blue and Spitfire Blue, from our painted range, create a calming, relaxed atmosphere for a Zen kitchen space.

19 DOOR STYLES | 22 PAINTED COLOURS | 418 WAYS TO MIX & MATCH

Our comprehensive range of colours, inspired by nature, allows you to mix and match to create a truly bespoke feel to your new kitchen.

GREAT DOORS DON'T JUST GROW ON TREES

Well they do, actually, but as well as that they are designed, crafted and manufactured with skill, judgement and consideration.

We are very aware, as a business, of our impact on the environment and are making it our mission to reduce that impact as much as possible.

As well as being Forest Stewardship Council (FSC) certified, we now incinerate any waste that cannot be recycled, which in turn creates energy, thus eliminating the need for landfill.

We have also introduced a range of doors that are made from 100% recycled wood.

CREATING YOUR MODERN KITCHEN

A modern kitchen design generally consists of open spaces, minimalist features, and simple styling, offering a sleek space for you to relax and entertain. This style allows for a bit of rule-breaking, giving you the freedom to follow personal preferences and trends.

For an elegant, orderly look, hiding clutter is important, particularly in open plan layouts. Make sure you have plenty of clever storage options, combined with integrated appliances, for a clean, fuss free finish.

CLEAN LINES & A NATURAL TOUCH

Simple and understated, the contemporary kitchen utilises high functionality and streamlined surfaces for a dramatic flair, but with a style that often incorporates traditional ideas for a more homely, welcoming feel.

Choose a look and layout that suits your lifestyle, taking you from elegant dinner parties with friends to breakfast with the kids.

HANDLELESS OPTIONS

One of the great benefits of handleless options is that they suit most contemporary or classic kitchen styles, creating an effortlessly smooth look.

It can be an ideal choice for open-plan kitchens, as brass wear can interrupt the flow between zones, making the change between the kitchen and relaxing areas seem harsh and obvious.

CREATIVE COLOURS & FINISHES

Contemporary kitchens exude personality and let homeowners express themselves through the use of different materials.

For a sophisticated, modern kitchen, think about layering an eclectic mix of materials, colours and finishes. Differences in texture and style can be effective in creating an exciting scheme with plenty of points of interest.

MAKING YOUR NEW KITCHEN AS FUNCTIONAL AS IT IS ATTRACTIVE

During the kitchen planning process it's useful to design, not just how you'd like the space to look, but just as importantly, how you typically use your space every day; Where are the pots and pans kept? How easy is it to see the contents at the back of my shelves? Can I actually reach every area of my cabinets?

All of our kitchens come with the optional addition of Clever Storage products from Kesseböhmer, that means your new kitchen design won't just look great, but will make time spent unpacking shopping, preparing meals, and tidying up both quick and easy.
